EIFS is an acronym for Exterior Insulation and Finish Systems. The product is also called synthetic stucco and refers to a multi-layered exterior finish that's been used in European construction since shortly after World War II when contractors found it to be a good repair choice for buildings damaged during the war.

What is EIFS - Synthetic Stucco?

Does Your Computer Use EFI? EFI is a type of firmware, meaning that it's software built into the computer to handle low-level tasks. Most importantly, the firmware controls the computer's boot process, which in turn means that EFI-based computers boot differently than do BIOS-based computers.

Linux on UEFI: A Quick Installation Guide - rodsbooks.com

Base Realignment and Closure (BRAC) BRAC is a process used to close excess military installations and realign the total asset inventory in order to save money on operations and maintenance.
