The job of the shock absorber is a simple one - to keep you as steady on the road as possible. When there are the inevitable bumps and potholes to deal with, it's the shock absorbers that keep your wheels tight to the road, working with the suspension system to even out surfaces and keep you on the straight and narrow.

7.1. Definition : 7.1.1. There can be a wide range of unco-operative behaviour by families towards professionals. From time to time all agencies will come into contact with families whose compliance is apparent rather than genuine, or who are more obviously reluctant, resistant or sometimes angry or hostile to their approaches.

7. Managing work with Families where there are obstacles ...
