

### **Mgb Workshop Manual**

MGB technical specifications. Throughout the years of production from May 1962 to Oct 1980 the MGB went through a number of changes and modifications brought about by improvements in safety & use regulations and general upgrades.

### **MGB Specifications - MGB Restoration Workshop Notes**

The ramps are lowered both ends when not in use so I can park one of the cars on them, and that 'raises' (ho ho) a couple more issues. Because the entry end is now about 4" off the ground the manual describes how to make a pair of pre-ramps - easy enough.

Originally the MGB used a cylindrical 3-pin flasher unit (GFU103, Lucas FL5), but this is not the same as modern electronic 3-pin flashers. On the originals the third pin is used to flash the dash repeaters via additional contacts in the indicator switch, whereas on electronic units the third pin is connected to earth.

Body/Chassis. To create the LE50, we start with an original iconic MGB and over the course of many weeks and months fully restore the body using all new panels that are hand built in Oxfordshire by British Motor Heritage to the identical specifications of the original and then apply our own exacting build standards.
