

Noise Music A History Paul

Noise music is a category of music that is characterised by the expressive use of noise within a musical context. This type of music tends to challenge the distinction that is made in conventional musical practices between musical and non-musical sound. Noise music includes a wide range of musical styles and sound-based creative practices that ...

In many history books, even some that are highly rated, you will read that the guitar was invented by the classical-era Greeks. This is due to a simple mistake. The Greeks had an instrument which they called a Kithara. As this was a stringed instrument and that the name resembles closely that of the
