The 2nd International Conference on Numerical Modelling in Engineering will be held from August 19 to 22 in Beijing, China. The overall objective of the conference is to bring together international scientists and engineers in academia and industry in fields related to advanced numerical techniques, such as FEM, BEM, IGA, etc., and their ...

Biomedical Engineering Apply engineering and other quantitative sciences to solving medical and biological problems, such as, developing sophisticated X-ray imaging systems, artificial organs, image recognition systems, and medical devices, and provides a quantitative understanding of disease processes.

This review focuses on direct numerical simulations (DNS) of turbulent flows laden with droplets or bubbles. DNS of these flows are more challenging than those of flows laden with solid particles due to the surface deformation in the former.
